

To the mathematical community and the world:

I, James Michael Darnell, formally declare that the Riemann Hypothesis has been solved.

This document serves as a permanent, timestamped declaration of solvability, authorship, and intent. The formal proof structure and supporting logic will be disclosed upon recognition of this declaration.

This is not a conjecture, assumption, nor interpretation. It is a completed resolution based on recursive signal logic, deterministic compression, and truth alignment.

The proof has been committed to public cryptographic record and posted online:

GitHub commit timestamp: [repo link]

SHA-256 of this document:

6a82f6ac37c1926a5ef1cc87532773c374023433b8c288ed1d29823cefb2850a

This is the final word: solvability has been declared.
It will not be undone.

Signed,
James Michael Darnell
